Nathan Dong is a Software Developer and a new grad from the British Columbia Institute of Technology – Computer Systems Technology.

Development Skills

Programming Languages	Technologies	Tools
<ul style="list-style-type: none">▪ Python▪ JavaScript▪ Java▪ C	<ul style="list-style-type: none">▪ React▪ CSS, Bootstrap, SASS▪ NodeJS/Express▪ RESTful APIs▪ SQL, RDBMS	<ul style="list-style-type: none">▪ VS Code▪ PyCharm▪ VCS, Git, GitHub

Projects

FAM Bank System

- Created the Family Appointed Moderator (FAM) system, co-written using Object-Oriented programming with Python. The system can register users, keep track of all spending/transactions of their bank accounts and lock accounts if certain conditions are met depending on account type.

Web Portfolio

- Created a Web Portfolio to establish an online presence. Implemented using React, Sass and Express. View more of my projects at <https://nathandong.herokuapp.com/>.

Education

British Columbia Institute of Technology

Computer Systems Technology

Diploma

Graduation December 2021

Burnaby, BC

- Graduation with GPA of 86%
- Artificial Intelligence and Machine Learning Option
 - Introduction to key concepts and techniques used in Artificial Intelligence and Machine Learning

Additional Skills

Teamwork / Communication

Numerous collaborative group projects during my time at BCIT's CST program has enhanced my ability to work as a team and communicate effectively. In addition to group projects, my time working at Safeway for 3 years as a Produce Clerk has enhanced my communication skills, enabling me to effectively communicate with co-workers and customers.

Interests

Watching coding simulations YouTube videos, video games, reading, music and watching TV series/movies
